

Frequency Controller FC 550

**More power, variable air volume,
controllable via remote control.**

Benefits

- Better hot air processes
- Up to 60% higher blower performance
- Lower system costs
- Easy to integrate with controller
- Air supply controller
- Saves energy
- Plug & play installation
- Integrated current monitoring and built-in motor protection switch
- Elimination of the motor condenser

Why Buy From Us

The Frequency Controller FC 550 is available only through STANMECH and its distributor network. This controller is designed for use with ROBUST, SILENCE, and ASO Blowers.

Technical Data – Frequency Controller

Voltage	V~	1 x 200-240 VAC
Max. Blower rated power	W	550
Frequency	Hz	50 / 60
Typical input current at full load	A	8.1
Output rated power (100%)	A	3.0
Weight	kg	1.0
