

LABO 34

Ultra-compact air heater without electronics with a power consumption of 800 W and a maximum air temperature of 650°C.

Benefits

- Extremely compact, robust construction
- Built without electronics to be controlled with separate temperature control system
- Ideal for machine building applications where constant heat is required
- Can operate using either compressed air or with a blower
- Precise pinpoint application

Why Buy From Us

The LABO 34 is available only through STANMECH and its distributor network. These compact, robust tools are designed specifically for machine installation.

Technical Data – LABO 34

Voltage	V~	230
Power consumption W		800
Frequency		
Max. temp.	Hz	50 / 60
Min. air flow	°C	650
Size (L)	l/min	100
Size (Dia.)	mm	124
Heater tube	mm	34
Weight	mm	22 Ø
