

TOOL 5000

The **TOOL 5000** is suitable for building into machinery, in heat tunnels and other applications where increased heating power & temperature control is required.

Benefits

- Compact, robust design
- Suitable for continuous use
- Adjustable air flow and temperature control
- Built-in safety features guard against overheating
- The heating element is protected against the interruption of the air supply
- Designed to be used with the our complete line of Leister blowers
- Precise delivery of hot air
- High process reliability
- Precise temperature control is possible by using our temperature controllers
- Compatible with a wide range of nozzles and fittings

Why Buy From Us

The **TOOL 5000** is available only through **STANMECH** and its distributor network. These compact, robust tools are designed specifically for machine installation.

Technical Data – TOOL 5000

Voltage	V~	230, 380-440, 380-440, 480
Power consumption	kW	4.0, 5.0-6.7, 7.5-10.0, 8.0
Frequency	Hz	50 / 60
Max. temp.	°C	700, 700, 650, 700
Min. air flow	l/min	400, 600, 1000, 900
Size (L x W x H)	mm	316 x 108 x 112
Heater tube	mm	62 Ø
Weight	kg	1.85
